Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-foot frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for \$250 each; 10 per cent cash, remaining payments to suit purchaser. Call and talk the matter over with

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away

Redwood City women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all of these disorders. Here's proof of it in a Redwood City woman's words: "Mrs. J. H. Bridgewater, living at 219 Jackson street, Redwood City, Cal., says: 'I suffered severely with a pain across the small of my back and it was with me no matter what position I assumed. I was subject to attacks of dizziness and my general health was in a much run down condition. Learning of Doan's Kidney Pills, I procured a box at F. A. Ryan's Drug Store, used them according to directions and they proved to be just the remedy I required. I received relief in a short time, and before stopped their use, I was well and strong.'"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's and take no other.

Ferry System for Peninsula

A plan to install a ferry service to connect the peninsula with the east shore is being worked up by landowners in the vicinity of Cooley's Landing and it is probable that the proposition will be brought up before the Palo Alto Board of Trade at the next meeting for that body's endorsement.

The question of securing a wagon road across the bay in connection with the Dunbarton railroad bridge project has been agitated continually since the Southern Pacific applied to the Government for permission to build the bridge. It has even been discussed at the meetings of the San Mateo County Supervisors.

However, very little progress has been made along that line, and it is probable that the railroad would oppose the plan with considerable energy. On the other hand, it is considered to be entirely feasible to operate a ferry from Cooley's Landing to a point on the mainland directly opposite. This would involve the building of about 900 feet of wharf on the peninsula side, in order to reach deep water at low tide. On the other side a landing would be available at Mowry's creek at the terminus of the old South Coast Railroad. The ferry would be available for wagon traffic from the whole transbay region, and as to the San Joaquin Valley, through the Niles canyon and the pass at Mission San Jose. The ferry would undoubtedly bring a great amount of travel from across the bay and would develop important business interests and intercourse between the two sections.

Married in Fresno

The marriage of Egbert Thomas A. Bartlett to Miss Maud Sprague took place recently at Fresno. The ceremony was performed by Rev. Father Mitchell at Hotel Hughes in the Raisin City. The groom is well known in San Mateo, being the only son of Mr. and Mrs. George Bartlett, and a nephew of Deputy Sheriff, Frank Bartlett. He has been in Fresno county for some time, where he is connected with the Southern Pacific Engineering department. His bride is an accomplished young lady and the daughter of Mr. and Mrs. W. D. Sprague of Lemoore. The young couple have taken up their residence at Coalinga.

HE WON HIS CASE.

An incident that illustrates the shrewdness of Ben Butler.

A number of years ago General Benjamin F. Butler was a guest of friends in Brooklyn. During his visit he noted the rule of the street railway companies compelling conductors to register fares as soon as passengers entered the cars and before the fares were actually collected. Two or three years afterward he represented the plaintiff in a damage suit for \$15,000 in which a Brooklyn street railway company was the defendant. The principal witness for the company was the conductor of the car on which the accident occurred, and his testimony was so strong as to make things look bad for Butler's client. But Butler recalled the unusual rule he had remarked years before, and on cross examination he said:

"Your company requires you to ring up fares as soon as passengers enter the car, doesn't it?"

"Yes."

"Suppose a passenger boards your car and then finds he is on the wrong line. Do you state that fact to your superiors, and do they make allowance on your returns for that fare?"

"No. I lose the nickel."

"Do you mean to say the company won't take your word for 5 cents?"

"No, they won't."

"Yet," said the shrewd veteran, turning to the jury, "the company asks you to take this conductor's word for \$15,000."

Butler's client received a verdict—Brooklyn Eagle.

HOW TO REPEL A DOG.

Letter Carrier Had a Remedy For Vicious Curs.

"No one comes in contact with all sorts of dogs more than the letter carrier," said the man in gray as the interviewer trudged along beside him. "Take it outside the business districts and every other family has a dog. Many of them I pay no attention to, but about one out of five aches to get his teeth into my legs at first sight. It is a part of my duty to teach such curs a lifelong lesson."

"Do you kick them?" was asked.

"That would be foolish. I carry here in my side pocket about a quarter of a pound of dry fine cut tobacco. You see it is almost as fine as snuff. The dog that means to bite you won't come charging down with a roar. He sneaks up behind and gives a jump in. I am ready for it. Without seeming to be watching, I know where he is, and at the right moment he gets the tobacco dust in his eyes. Then there is a circus. That dog goes through such a performance as you never witnessed, and his owner, man or woman, indulges in all sorts of threats. I deliver the mail and say nothing and go on. The dog's eyes are sore for a fortnight, and if he afterward meets me on the street he will drop his tail and make a bolt for home. It's a lesson he never forgets, and I believe it also increases his owner's respect for Uncle Sam's uniform."—Chicago News.

fair skins, blue eyes and light hair, and students of ethnology have always been puzzled to account for them. There is a tradition, however, that these Indians are the descendants of the crew and passengers of a Swedish vessel wrecked on the Mexican coast centuries before Columbus discovered the new world, but this tradition is founded on nothing more substantial than a folklore tale current among them that their ancestors came over the big salt water hundreds of moons ago.

An Ancient Prayer.

Old John Ward, who was pilloried by Pope in the "Dunclad" and who actually stood in the pillory in the year 1727, when he was said to have been worth £200,000, was nevertheless a pious man. He had large estates in London and Essex and did not omit to pray for their welfare in the following manner: "O Lord, I beseech thee to preserve the two counties of Middlesex and Essex from fire and earthquake, and as I have a mortgage in Hertfordshire I beg of thee likewise to have an eye of compassion on that county, and for the rest of the counties, deal with them as thou pleaseth."

Since the couple moved to San Mateo Morgan has been seen in the public streets under the influence of liquor. On one occasion he signed checks on banks in her name and was given the money and would have been arrested if friends had not come to his aid and advanced the money. Gale carried off the honors of the day by his good work with the mitt. Kelly at 1st base, A. McCollough who replaced his brother at 2nd base, and Vizzard who replaced Al Midgely at 3rd during the 6th inning all did good work. Arthur Midgely who was in the box for the Menlo Park team has a good wing, and at times had the San Mateoites guessing but he needs to steady down a little as towards the end he was inclined to be wild. W. Gale who scooped up the grounders at short was almost taken off his feet by some hot balls but he held on to them. Very few balls were knocked into the field but enough were knocked there to show that there is the teams weak spot. The game was won by San Mateo chiefly on Menlo's errors and shows

the necessity of much more practice quicker foot work and better team work on the part of the Sodality team. The line up was as follows: Menlo Park: A. Gale, catcher; Arthur Midgely, pitcher; Kelly, 1st base; A. McCollough, 2nd base; Vizzard 3rd base; W. Gale s. s.; Hartkus r. f.; C. McCollough c. f.; Al Midgely l. f.; substitutes J. O'Brien, H. The Base Ball Team will play Rieds school at Belmont today.

Remember the date, April 4. That is the day set for our drama, "The Pride of Virginia." A military drill and music will come between acts. This play is a story of the Civil War and is very interesting. We want every body to come April 4th. On March 3 the Sophomores held a class party at the Gerwin residence. Everybody had a splendid time. The pleasure of the evening was somewhat marred by some of the Freshmen who tied the windows and then stole Mr. McCrea's family lantern, also five pair of rubbers. A little later the Juniors appeared and stole some cake, they also took the ice-cream freezer but where was the ice-cream?

The pupils of the Sequoia Union High School are preparing to give, some time in March, a drama, "The Pride of Virginia." The play selected is a series of pictures of life during the Civil War. The first scene is in Washington, D. C. just after the firing on Fort Sumter. The second act takes us into Virginia where we see something of army life. The story is clean and pure, a festsy of the love and devotion of a Southern beauty runs throughout. Enough fun is interspersed to make the play very interesting.

The following is the cast of characters:

General Haverill—Walter Nobs. Capt Robert Farley—Robert Fox. Luke Ransome—Otto Offermann. Mickle—Wilbur Dossie. Arthur Trevelin—Lindsey Wilson Grubbin—John McCrea. Uncle Joe—Morris Goldsmith. Virginia—Lizzie Lewis. Kitty Cloverdale—Minnie Becker. Mrs. Trevelin—Vera Gerwin.

Will Leave His Old Home.

Chis Iverson, who resided in the Alpine district for the past forty years, has made a contract with the O'Connor Sanitarium of San Jose, for life maintenance. His lonely cabin on the hill side was always open to the hunter and fisherman and they made it their headquarters. The hospitality of the old man was known far and wide and no one passed without dropping in for a chat with the genial proprietor. He will have all the care and comfort his heart desires at the sanitarium and his friends hope he will live long to enjoy his retirement from active life.

L. COBURN'S INCOMPETENCY

This matter of the incompetency of Loren Coburn was finally submitted to the court on Wednesday last and was argued—Mr. Ross and Mr. Jordan for the petitioner and Mr. Kincaid and Mr. Treat for the old gentleman.

There had been so many postponements of the case that a representative of this paper has not been able to be present at all times, but as the local correspondent of the Call has appeared to take sides in favor of Loren and to try to give the impression that Carl Coburn had worked a scheme to benefit himself, in justice to Carl, this paper deems it but right to present the contention of the petitioner as stated by his attorneys in their argument before Judge Buck.

It was admitted by the attorneys that the petitioner, Azeo Coburn had come here from the East at the request of Carl who had written him that Loren was, in his judgment, incompetent. That upon his arrival here he was told by Carl that Loren would sign any paper presented to him; that he would first read legal papers and then sign them no matter what they were and that he then prepared and presented to Loren the papers offered in evidence and filed with the clerk all of which were so signed within the period of about one month and covered property of the value of several million dollars and were as follows:

Deed from Loren of about 10,000 acres of his land near Pescadero to E. B. Galzetti; deed to Al Weeks of his pocket ranch; deed of the City Hall property in San Francisco to Dr. B. Richards a Notary Public; lease to Dr. Banks of the school house property at Pescadero; lease to M. J. Perry of the Catholic church lot at Pescadero; lease of the Jefferson Hotel block in San Francisco; lease of the Broadway depot block in Oakland; lease of the Svanato House property at Pescadero; and receipt to Dr. Banks for rent for one month for the school house lot. It was only upon seeing some of these papers signed by Loren and having the others shown to him and after consultation with his attorneys that this proceeding was commenced by Azeo.

The attorneys also referred to a general power of attorney from Loren to Carl giving authority to deed and mortgage his lands, sign notes, etc. This power of attorney is in the writing of Judge Fitzpatrick, the signature of Loren thereon, and purports to have been acknowledged by him before A. O. McCormick, Justice of the Peace at Pescadero. Mr. Ross read from the reporters transcript the testimony of Mr. McCormick that Loren brought the paper to him to be acknowledged and that Loren read it in his presence before he certified to it. Loren however denied its execution and the attorney for petitioner read the following questions and answers given by Loren as certified by the official reporter:

Q. "Did you ever knowingly give a power of attorney to Carl Coburn by which he could mortgage your property, or sell your property, or make promissory notes for you or with such powers as those?"
A. "Never in my life, or any body else."
Q. "No power of attorney that enabled the person who possessed it to sell your property?"
A. "Never in my life, and I wouldn't; I am so incompetent as that."

The attorneys also showed that Loren had executed and acknowledged before his own attorney, Mr. Kincaid on February 25th, 1908, a revocation of this power of attorney which revocation was recorded on February 26th last and read the following testimony of Loren: "I have no power of attorney which has been presented in this case; did you file any revocation?"

A. "Never anything of the kind came up, never."
Q. "Well did you file any revocation of the purported power of attorney?"
A. "No sir; no sir."
Q. "I mean did you, when you ascertained that there was what was called a power of attorney, direct your lawyers to do anything concerning it?"
A. "Nothing of that kind never arose."

It was then argued that if Loren did not know that he had executed this revocation before his own lawyer only 15 days preceding he probably did not know what he was doing in signing other papers.

Mr. Coburn also denied that he had executed a note for \$5,000 held by the Redwood City Commercial Bank, or had obtained any money on account of it. The details concerning this note as claimed by the petitioner were that Carl, using \$3,000 of the proceeds to pay a former note signed by Loren and held by the bank, \$500 to pay a claim by Loren against the county, which the bank had discounted but which the supervisors rejected, \$50 charged for discount, and a check for \$1450 balance. This balance was paid to Loren by Carl through J. C. Williamson of Pescadero, and Carl let Loren have \$50, making even \$1500 and thereupon Loren gave Carl his note filled out in the hand of Loren for the whole \$1,500, \$1450 of which was his own money. Loren now says he owes Carl this full \$1500 while Carl, who the Call's correspondent says is trying to hold on to Loren's property, states under oath that the only portion of the note due him is \$50.

This paper submits to its readers that if Carl will not take money from Loren even when Loren admits it is due, because Carl knows the old gentleman is mistaken he is certainly not trying to take any advantage of Loren, and that with such reputable men as Mr. Dugan and J. C. Williamson, able to contradict Carl if wrong, the details of this transaction by Carl must be true.

Wm. Craig formerly an attorney for Mr. Coburn testified that his opinion now was that Coburn was competent, but admitted that he had told Azeo, Carl and Mr. Jordan that Loren was an incompetent and that he had also written Carl a letter to the same effect.

The matter was taken under advisement by Judge Buck and a decision is expected at an early day.

Cutting Down Young Trees.

Vandals in and around La Honda are cutting down portions of small redwood trees not only on the highways but also in private grounds and are making chairs and rustic work of the wood. This is an offense punishable by both fine and imprisonment. This bill was introduced by Assemblyman Jury of this county at the last legislature, and was adopted by both branches of the legislature and became a law. These sapplings should be protected for in time they will be large trees and take the places of the trees that have fell victims to the merciless swing of the woodman's ax. Any one caught cutting down these trees should be given the full penalty of the law.

Managers Complimented

We quote the following from the last issue of the "American Building Association News."

"During the recent financial flurry, the building association movement of the United States has again demonstrated their great value to the public. While banks, savings and trust institutions were compelled to demand sixty days' notice and other measures, the building associations have met the demands made by their members without any trouble whatever. If fact, new members have constantly been joining the ranks and members have constantly met their obligations in a manner little short of marvelous.

"The great educational work that has been going on in recent years is bearing good fruit. Members now fully realize that the building association is their institution, and that they participate in its success to the fullest limit. The idea of co-operation is clearly defined, and the members reap all the benefits accruing through this united effort.

"With the great record the associations have made during the past month and the entire year they will merit the confidence of the public they so well deserve.

"We desire to compliment the members and the managers of these associations for their splendid work, and there is no doubt in our mind that a large increase in membership will result in the near future.

"Building associations are the great co-operative savings and home building institutions of the people."
